26.7	28.7	47.6	131	243	170
July	August	September	October	November	December
46.3	13.9	12	14.5	26.5	28

9. Basis of Claim:

The legal basis for this water right claim stems from the doctrine of federal reserved water rights articulated by the United States Supreme Court in *Winters v. United States*, 207 U.S. 564 (1908) and its progeny, as well as the operative documents and circumstances surrounding the creation of the Kalispel Reservation, including but not limited to, the Executive Order signed by President Wilson on March 23, 1914, C. Kapler, Indian Affairs: Laws and Treaties 1051 (Vol. 4, 1927).

10. Other Provisions:

a. This claim is one in a series the United States is making for waters from surface water sources within the Clark Fork-Pend-Oreille Rivers Water System Adjudication in the State of Idaho to fulfill the permanent homeland purpose of the Kalispel Indian Reservation, including the present and future fishing purpose.

b. Prior to the creation of the Reservation in 1914, the Kalispel Tribe held aboriginal title to certain lands “within the United States in what are now the States of Washington, Idaho and Montana.” *The Lower Pend D 'Oreille or Kalispel Tribe of Indians v. United States of America*, Docket No. 94, 12 Ind. Cl. Comm. 141 (1963). The Kalispel Reservation is located on the mainstem Pend Oreille River because fishing is central to the Tribe’s history, culture and use of resources. The Tribe never agreed to cede right, title or interest outside the Reservation. *C.f.*, *In re CSRBA Case No. 49576 Subcase No. 91-7755*, 165 Idaho 517, 548–49, 448 P.3d 322 (2019).

c. This water right claim is for a traditional use of water that predates the creation of the Kalispel Reservation. This right was not created but was instead confirmed

by the executive order outlined in section 9, *supra. United States v. Adair*, 723 F.2d 1394, 1414 (9th Cir. 1984). Therefore, pursuant to federal law, the priority date of this water right is time immemorial. *Id.*

d. In order to comply with Idaho Code § 42-1409(1), the United States has designated “places of use,” “points of diversion,” and “purposes of use” in submitting this water rights claim. This proposed water right claim form has been developed in conjunction with, and at the request of, the Idaho Department of Water Resources (“IDWR”). The use of this format as required by Idaho Code, and as requested by IDWR, should not be construed to limit either the United States or the Kalispel Tribe’s future use of water at other points of diversion, places of use or for other purposes within the boundaries of the Reservation. The statute's terminology has been employed to demonstrate that the amount claimed is necessary, justifiable, and available to achieve the purpose of the Reservation as a homeland for the Kalispel Tribe.
